

Douglas Heart

Biography

There are more interesting bands coming from Gothenburg than from anywhere else in Sweden right now. Douglas Heart is the latest proof of that.

Together with the former member of Soundtrack Of Our Lives, Bjorn Olsson, they have recorded an absolutely amazing debut album.

Douglas Heart defines their music as "dreamcore" and has a sound somewhere not too far from Sigur Ros, Mazzy Star and Stina Nordenstam. It's beautiful and cool at the same time.

The members of the band also play in the sideprojects Franke and Laurel Music.
